

TITULO	REVISTA	FACTOR DE IMPACTO	Q/D	DOI	UT (Unique WOS ID)	PMID
Free circulating DNA and DNase activity in the ejaculates of men with spinal cord injury	SPINAL CORD	1,773	Q3	10.1038/s41393-020-0518-3	WOS:000547240600001	32651457
A comprehensive analysis of candidate genes in familial pancreatic cancer families reveals a high frequency of potentially pathogenic germline variants	EBIOMEDICINE	5,736	Q1	10.1016/j.ebiom.2020.102675	WOS:000523581700001	32113160
Microencapsulation of human spermatozoa increases membrane stability and DNA longevity	ANDROLOGIA	2,775	Q2	10.1111/and.13924	WOS:000601039900001	33355946
DNA fragmentation of human spermatozoa: Simple assessment of single- and double-strand DNA breaks and their respective dynamic behavioral response	ANDROLOGY	2,86	Q2	10.1111/andr.12819	WOS:000540245200001	32416007
1p36 is a chromosomal site of genomic instability in cervical intraepithelial neoplasia	BIOTECHNIC & HISTOCHEMISTRY	1,718	Q4	10.1080/10520295.2019.1652344	WOS:000485359800001	31502894
Detection of DNA damage in pigeon erythrocytes using a chromatin dispersion assay	TOXICOLOGY MECHANISMS AND METHODS	2,987	Q3	10.1080/15376516.2019.1701596	WOS:000503931900001	31805813
